‡

The diagram consists of a grid of symbols. The central element is the text "LOW-E". Surrounding it are various symbols including the pound sign (£), the dollar sign (\$), the plus sign (+), the minus sign (-), and the numbers 5 and 8. The symbols are arranged in a way that suggests a complex relationship or a specific pattern, possibly related to a scientific or mathematical concept. The symbols are distributed across the grid, with some appearing in pairs or groups, and others appearing alone. The overall layout is symmetrical and balanced, with the central "LOW-E" acting as a focal point.
